

## ARTIFICIAL REEF PROJECT MEETS ALL GOALS

Congratulations to Larry Beggs and crew. They have successfully completed the first phase of the Artificial Reef Project off Port Canaveral. Placement goals were exceeded by 51% with 159 Reef Balls placed on location. This is truly an outstanding achievement. Larry has asked me to recognize the following for their participation in the project.

- |                      |                                |                 |
|----------------------|--------------------------------|-----------------|
| Dave Nolan           | Bob West                       | Brent Gindrod   |
| Jack Nolan           | Sarah                          | Charlie Gindrod |
| Aian Pedigo          | Boat Doctor                    | Jean Kinzlow    |
| Van Stickle          | Cape Marina                    | Saltwater News  |
| Atlantic Boat Repair | La Cantina                     | Jim Richards    |
| John Holmes          | Avalise Lamb                   | Roy Hyder       |
| Seapon Restaurant    | International Towing & Salvage |                 |
| Ron Jon's Surf Shop  | Canaveral Technographics       |                 |
| Fish & Dive Center   | Canaveral Rinker Plant         |                 |
| Prof. Lee Harris     | Pelican Princess & Crew        |                 |

This was a tremendous effort, which lasted for over a year. "WELL DONE" to all those that made it happen. Many talk about improving the environment, but this group truly made a difference.
