Sleeping Sharks - Virtual Expedition Pictures

Documentary Team Interviews Eric - February 19, 97 11:32 AM

While the ROV team preforms surgery on "Oscar" The documentary crew takes this opportunity to interview Eric Smith on sientific recruitment stations the dive team will be placing on the plane. In his hand is a reef ball system.

FKCC Students get interviewed - February 19, 97 11:38 AM

Florida Keys Community College students get interviewed by the documentary team. They constructed the second type of recruitment station that will be placed on the plane wreck. It is a cross with tiles on all four points. They are mounted in different angles to the sun and are retrieved and photographed over time by a video microscope. We hope to bring you some of these images live on our next expediton.

Reef Ball System - February 19, 97 11:41 AM

This is a close up of the Reef Ball system. The Reef Ball company has generously donated their product to our research program.

Some more pictures from Monday - February 19, 97 02:59 PM
