Subject: PT. Newmont Nusa Tenggara Reefball

Hi Todd,

I'm Windy, a coordinator of PTNNT reefball monitoring program.. I'm one section with Agus Setianto; a Manager Reefball Project, in Environmental Dept..

Herewith, I send you an attachment as your request to Agus for some pictures of our previous report to reefball foundation..

And also the around location of PTNNT reefball Coordinat GPS as shown below;

Latitude	Longitude
9016806	471298
9016718	471435

Todd, have you some reference or maybe report from other Reefball project/site about Critical Indicator and Success criteria in reefball? If you have any, can you send me some.. please
 I had been writing a tools/guideline for reefball monitoring in Benete area. The guideline in generally talking about finding a right place of reefball location (mantatow /Aqua fish method), Deployment Technique, Reefball monitoring technique (Quadrat transect) and Critical Indicator and Success criteria. So far, most of material/chapter is done, except for Critical indicator and success criteria, I have no reference...

I really appreciate it if you can help me... thankyou

If there any question or other concern, please feel free to contact me

Regards,

Windy Prayogo
 Environmental Department
 PT. Newmont Nusa Tenggara
