500 Reef Balls slated for deployment on the Great Egg and Little Egg Reefs

OCTOBER 21, 2008 • 1:32 PM
By Adam Monacelli

Reef Ball Deployment

Five hundred reef balls have been constructed at Southern State Correctional Facility and are ready for deployment during early November at the Great Egg and Little Egg Reefs. The Great Egg Reef is located eight nautical miles southeast of Absecon Inlet and the Little Egg Reef is located five nautical miles east of Little Egg Inlet. Each reef site will receive 250 reef balls. The reef balls will soon be homes for more than 150 species of fish and other marine life as part of the [Artificial Reef Program](#).
